

TOOL-UP YOUR CNC

**MADE
IN USA**

TOOL-UP CERTIFICATES

Techniks tool-up certificates allow you to purchase your tooling when you finance your machine, and not have to pick out tools until you know exactly what you need. Our Tooling Certificates bundle a tooling purchase in with your machine, helping you prevent unexpected out-of-pocket expenses when you tool up your new machine.

FOR MACHINE DEALERS:

- Purchase a tooling certificate at your normal discount using part number "CERT" for any value of tooling.
- Sell the tooling certificate to your customer for a price set at your discretion.
- Techniks will apply a credit in our system for your customer for the list price value of their certificate.
- Your customer contacts Techniks Tool Group when they are ready to redeem their certificate for tooling as needed.
- Customers may take up to a year to redeem the balance of their tool certificate.

FOR END-USERS:

- Purchase a Techniks Tooling Certificate for a specified amount, either from your machine tool dealer or your cutting tool distributor.
- When you are ready to "TOOL-UP", you may redeem all, or any portion of your certificate value at any time for one year. Certificates expire 1 year from day of purchase.
- The tooling experts at Techniks will help you specify the tooling you need from our full-line CNC Tooling Solutions catalog.
